

## **Assistant or Associate Professor of Biostatistics**

---

Faculty of Medicine –Department of Epidemiology, Biostatistics and Occupational Health

---

### **Position description**

The Department of Epidemiology, Biostatistics and Occupational Health, Faculty of Medicine, McGill University, invites applications for a tenure track faculty position at the rank of Assistant or Associate Professor of Biostatistics.

McGill University is one of Canada's leading universities, and the Department of Epidemiology, Biostatistics and Occupational Health is home to one of the largest concentration of doctoral-level biostatisticians, with internationally recognized research programmes in topics such as causal inference and statistical genetics. The Department is one of the top academic units for biomedical statistics in the world, and offers a vibrant research environment.

### **Job Duties**

The successful candidate will have potential and proven ability to develop an internationally recognized research program in Biostatistics, a demonstrated ability to obtain grants for his/her own research or to contribute to the building of successful research projects in public and population health, health services research or clinical research.

The candidate is also expected to be actively involved in all aspects of McGill's academic mission (research, teaching, supervision of graduate students and involvement in academic and administrative committees).

### **Qualifications and Education requirements**

Candidates must have a doctorate in statistics or biostatistics and relevant research experience in Biostatistics. Necessary qualifications for the position include evidence of research productivity (peer-reviewed publications) and a strong commitment to excellence in teaching.

---

### **JOB DETAILS**

---
